

## Software Developer

### Overview:

The role of the Global Software Developer is to work with the development and programming team to create, maintain and develop our existing and expanding line of products. This growth focused role allows interaction with a dynamic product line and works as part of a creative and cutting edge team.

### Responsibilities:

We are currently looking for a Software Developer to help drive the development of our platform. The ideal candidate should have a passion for solving complex issues, while having the flexibility and ability to quickly learn and adapt to new technologies when necessary.

### Professional Qualifications:

- Bachelor's degree in Computer Science or related field preferred
- 3-5 years of Visual Studio .Net, JavaScript, HTML5, HTML, Cloud, SaaS, SQL server, and VB.net development experience
- Excellent working knowledge of Excel and ASP.net
- Development experience SQL Server and web services such as SOAP or REST
- Experience with web application performance
- Experience with SQL syntax and construction for SQL Server
- Agile/Scrum experience

### Additional desired skills: (considered a plus)

- Scrum master certification preferred
- Experience with document management systems
- Development using Google Analytics, Office 365, and Office for MAC

---

### About Global Software, Inc.

Global Software, Inc. is the No.1 worldwide provider of Microsoft® Excel-based reporting and automation solutions to ERP systems including SAP®, Oracle®, JD Edwards®, among others.
