CASE STUDY:
Microsoft Excel Automation
Coca-Cola Bottling Co.

Coca-Cola Bottling Co. Consolidated (CCBCC) has one of the highest per capita soft drink consumption rates in the world and manages franchise territories with a consumer base of more than eighteen million people. They utilize SAP® software for their enterprise resource planning.

A sole leader in manufacturing, selling, and distributing soft drinks, CCBCC is the second largest Coca-Cola bottler in the United States. With corporate offices in Charlotte, North Carolina, the company does business in eleven states, primarily in the Southeast region.

1. COMPANY SNAPSHOT
   - Customer Since: 2009
   - Users: 45
   - ERP System: SAP

2. SITUATION & STRATEGY
   Coca-Cola came to Global Software, Inc. with the need to retrieve dynamic data directly from their SAP application into Microsoft® Excel in a simple, inconclusive way. In addition, they wanted the ability to design financial reports on the fly with more flexibility. Coca-Cola desired a more efficient way to examine these statements to determine profit ratios, to examine costs and selling prices and to transfer subtotals more accurately from month to month. For these needs and many more, Global introduced them to Spreadsheet Server and Budget Excelerator.

3. RESULTS
   Increased accuracy and flexibility in examining profit/loss statements and on-the-fly reporting

4. WHAT CCBCC HAS TO SAY
   “Spreadsheet Server enables us to perform much more detailed allocations between our departments and its intuitive nature has improved our financial reporting and analysis.”
   Jody Billiard
   VP/Controller
   Coca-Cola Bottling Co.

5. RESULTS
   Report Distribution Efficiency: from manual multi-step data entry to one-click results

6. PLATFORMS FOR SUCCESS
   Fast Implementation and Training for intuitive, user-friendly products

7. INTEGRATION
   Spreadsheet Server converts Excel into a tightly integrated analytical tool for any ERP system. Users can leverage the strength of their spreadsheets with seamless dynamic integration to their information, along with powerful drill-down capability to the lowest level of detail. It allows users to build a range of reports from simple ad hoc workbooks to complex dashboard-type views of critical business data.

8. IN A NUTSHELL
   Coca-Cola has not only saved a tremendous amount of time each month working on Income statements, but they are able to achieve new capabilities. They can now perform more detailed allocations between departments within their organization and easily view forecasts for individual functions and the entire company.
