2 SITUATION & STRATEGY

McCoig has discovered a perfect synergy between Vista™ by Viewpoint, and Global Software Inc.'s Spreadsheet Server. Despite their move from Oracle to Viewpoint, McCoig users have been able to continuously use the software and reap the benefits. Complex reporting is now a simple, intuitive process, allowing them to create "what-if" scenarios on the fly, and look at reports in close detail at any moment!

3 RESULTS

Time Expended to Produce Comprehensive Reports

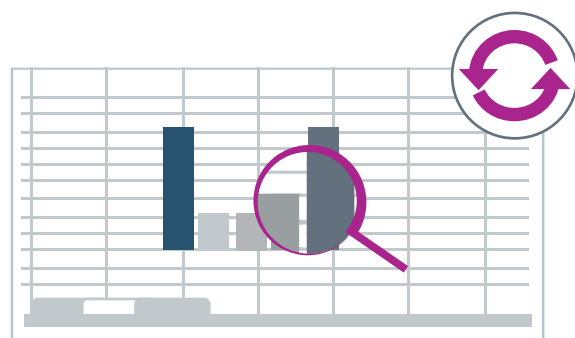

"I would tell any Viewpoint user to add Global Software Inc.'s Spreadsheet Server to their technology platform. Spreadsheet Server is so intuitive – we save ourselves tons of time and that's important to our small accounting department."

Spreadsheet Server converts Excel into a tightly integrated analytical tool for any ERP system. Users can leverage the strength of their spreadsheets with seamless dynamic integration to their information, along with powerful drill-down capability to the lowest level of detail. It allows users to build a range of reports from simple ad hoc workbooks to complex dashboard-type views of critical business data.

Distribution Manager automates the distribution of reports from Excel.

7 PLATFORMS FOR SUCCESS

8 IN A NUTSHELL

Having Vista and Spreadsheet Server's Dynamic Spreadsheet Methodology working together with McCoig technology has brought some new efficiencies to the organization that didn't exist before. Not only is training easy because of McCoig's accountants' familiarity with Excel, but drill down capabilities and easy growth management meet every need of the company, making their lives simpler!
