

CASE STUDY:

Microsoft Excel Automation Nanometrics Incorporated

nanometrics **Nanometrics Incorporated**

was created in California in 1975. Nanometrics is a leading provider of advanced, high-performance process control metrology and inspection systems used primarily in the fabrication of semiconductors and other solid-state devices. They have been a pioneer and innovator in the field of optical metrology. Nanometrics Incorporated has an extensive installed base of more than 6,500 systems in over 150 production factories worldwide. Their major customers and original equipment manufacturer partners include the largest semiconductor and process equipment manufacturers in the world.

Spreadsheet Server converts Excel into a tightly integrated analytical tool for any ERP system. Users can leverage the strength of their spreadsheets with seamless dynamic integration to their information, along with powerful drill-down capability to the lowest level of detail. It allows users to build a range of reports from simple ad hoc workbooks to complex dashboard-type views of critical business data.

Distribution Manager automates the distribution of reports from Excel.
