**2 SITUATION & STRATEGY**  
As a result of their expansion and growth over the past 100 years, Bassett Furniture has seen an increase in the need for a reliable, dynamic financial reporting program. They had been using the J.D. Edwards™ World and EnterpriseOne software, and were manually downloading and rekeying figures into Microsoft® Excel for reporting. After the quick implementation of Spreadsheet Server for use with J.D. Edwards™, Bassett Furniture was producing reports and analyzing transaction level detail in sub ledgers all within Excel.
