"I am most impressed with the drill-down capabilities. I knew what kind of software we were looking for, and this was it."

Matt Biddinger
Division Controller
Hunter Fan Company

WHAT HUNTER FAN HAS TO SAY

2 SITUATION & STRATEGY

Because of their immense growth over the past century, OldSecond's accounting team found a distinct need for a faster, more reliable financial reporting application. They needed a solution that would simplify their monthly, quarterly and yearly closings. In less than three weeks from its introduction, the Spreadsheet Server was evaluated and purchased. Within the next month, it has been implemented and the Old Second Bancorp accounting team had closed out their first month using Spreadsheet Server for use with Jack Henry which yielded positive results.

3 RESULTS

Implementation and Training completed within hours for intuitive, user-friendly products

5 RESULTS

Business has improved with the new ability to manage reports, budgets, and spending more accurately

Automation saves Hunter Fan hundred of hours a year

6 RESULTS

Spreadsheet Server converts Excel into a tightly integrated analytical tool for any ERP system. Users can leverage the strength of their spreadsheets with seamless dynamic integration to their information, along with powerful drill-down capability to the lowest level of detail. It allows users to build a range of reports from simple ad hoc workbooks to complex dashboard-type views of critical business data.

7 PLATFORMS FOR SUCCESS

Distribution Manager automates the distribution of reports from Excel.

8 IN A NUTSHELL

Upon implementation, the accounting team recognized significant improvement in the reporting process. Spreadsheet Server improves the integrity of the data by eliminating manual data entry. Not only is production of reports more up-to-date and easier, but the capabilities that Spreadsheet Server for use with Jack Henry offers have vastly improved the analysis of the reports produced.
