

GLOBAL SOFTWARE, INC. CASE STUDY

Blinn College

Introduction

This case study of Blinn College is based on a January 2018 survey of Global Software, Inc. customers by TechValidate, a 3rd-party research service.

“

Before we started using Spreadsheet Server, all of our financial reports were created manually using Excel. We have been able to set up templates and create reports in a fraction of the time we spend using the old manual system.”

Challenges

Addressed the following reporting challenges after implementing Spreadsheet Server:

- Rekeying data from the ERP system into spreadsheets
- Manual, multi-step reporting processes
- Heavy reliance on IT to create or edit reports
- Creating reports in a timely manner

Evaluated the following reporting tool before selecting Spreadsheet Server:

- Argos Reporting

Use Case

- Uses Argos with Spreadsheet Server.
- Uses Spreadsheet Server QueryDesigner functionality for reporting:
 - Annual audits
 - Board reporting

Results

- Freed up more than 25% of their IT support since using Spreadsheet Server to create reports.
- Saved more than 60% of time from their previous reporting process using Spreadsheet Server.
