

GLOBAL SOFTWARE, INC. CASE STUDY

Hexcel Corporation

Introduction

This case study of Hexcel Corporation is based on an April 2017 survey of Global Software, Inc. customers by TechValidate, a 3rd-party research service.

“Atlas is so useful for me in uploading journals in Microsoft AX. Atlas reduces the time I spend on accounting inputs and increases the time I work on something else. Sometimes, I have hundred of lines of accounting recordings, if I don't have this great tool I would have been stuck for days keying them in.”

Challenges

The business challenges that led the profiled company to evaluate and ultimately select Atlas:

- Rekeying data from Microsoft Dynamics into spreadsheets
- Combining/consolidating GL and non-GL data from multiple ERP & relational database sources
- Sometimes, I have to key a long JL to reclass or correct some inputs, so I use Atlas uploads, which is so much easier than recording each line by itself

Use Case

The surveyed company chose Atlas over the following tool:

- Excel Add-in

Results

The surveyed company achieved the following results with Atlas by Global Software, Inc.:

- The ability to upload data directly from Excel

Streamlined the following processes by using Atlas:

- Data migration / upload
- Integrating report information with Microsoft Office tools

Gained the ability to do the following by using Atlas:

- Increase the ability to complete tactical, complex analysis
- Increase time savings
