American Museum of Natural History Selects Global Software, Inc.'s Spreadsheet Server for use with Oracle®

RALEIGH, NC USA (11th September, 2015) – Global Software, Inc., the No. 1 provider of Microsoft® Excel-based automation and reporting tools to the leading enterprise resource planning (ERP) platforms, announces today that American Museum of Natural History, headquartered in New York, New York, has selected Global's Spreadsheet Server for use with Oracle® powered by the QueryExchange™. Spreadsheet Server works as an intuitive, Excel based reporting platform, providing live financial and operational reporting and analysis from Oracle into Excel. This empowers end users with the ability to use familiar Excel features and functions to create dynamic dashboard views from Oracle. These views can be accessed, automated and presented with our formula driven methodology, including summary balances and detailed drill-downs. In addition, the American Museum of Natural History will leverage the Distribution Manager publishing utility, which empowers users to automate the delivery of key business information.

The American Museum of Natural History is one of the world's preeminent scientific and cultural institutions. Since its founding in 1869, the Museum has advanced its global mission to discover, interpret, and disseminate information about human cultures, the natural world, and the universe through a wide-ranging program of scientific research, education, and exhibition.
