

Bramasol Joins Global Software, Inc.'s Worldwide Certified Partner Channel to Offer Global's Microsoft® Excel- Based Automation Solutions to the SAP® User Community

RALEIGH, NC USA (May 10, 2012) - Global Software, Inc., the official author of the Automation Road Map Strategy™ for Microsoft® Excel and the No. 1 provider of Microsoft® Excel-based automation and analysis tools to the leading enterprise resource planning (ERP) platforms, announces that Bramasol, Inc. the United States' most experienced certified representative of SAP software to small and mid-size enterprises, has joined the Global Software, Inc. (GSI) worldwide certified partner channel.

With the new partnership, Bramasol will add Spreadsheet Server Powered by the QueryExchange™, GSI's flagship application in the SAP® space, complementing its current service offerings to the SAP user communities. Spreadsheet Server, Powered by the QueryExchange™ works as an intuitive Microsoft® add-in providing live reporting and analysis from SAP into Excel. This empowers end users with the ability to use familiar Excel features and functions to create dynamic dashboard views from SAP. These views can be accessed, automated and presented with our formula driven methodology, including summary balances and detailed drill-downs. The cloud-based QueryExchange™ component of Spreadsheet Server enables users to select and tailor pre-built queries to meet their specific needs. In addition, Spreadsheet Server has the ability to dynamically access the following modules: FICO, PCA, SD, MM, PP, QM, PM, HR, PS, New GL, and Special Ledgers. Spreadsheet Server enhances the SAP financial and operational user experience all while leveraging the significant investments made by the customer in Microsoft Excel.

“The management team at Bramasol is very experienced, capable and well established in the SAP world. We are thrilled to bring them onboard as a showcase certified partner in our channel,” said Ken Bernstein, senior director of business development and channel expansion for Global Software, Inc. “Our flagship tool, Spreadsheet Server for use with SAP resonates with the Bramasol team and addresses the challenges many of their customers are having with their use of Microsoft Excel as a reporting and analysis solution with SAP.”

“We have been well aware of the impact that Spreadsheet Server for use with SAP has had on the SAP market and have been quite impressed with its value proposition of enhancing the SAP user experience via Microsoft Excel,” said David Fellers, CEO for Bramasol. “We see a multitude of practical applications for Global's Automation Road Map Strategy for Microsoft Excel. The Global Soft application can help our customers with an economical solution that gives them options for reporting they might not have otherwise considered.”
