

## **CEMEX USA Shared Services Selects Global Software, Inc.'s Spreadsheet Server for use with SAP®**

RALEIGH, NC USA (JANUARY 8, 2012) – Global Software, Inc., the official author of the Automation Road Map Strategy™ and the number one provider of Microsoft® Excel-based automation and analysis tools to the leading enterprise resource planning (ERP) platforms, announces today that CEMEX USA Shared Services, headquartered in West Palm Beach, FL has selected Global's Spreadsheet Server for use with SAP® powered by the QueryExchange™. Spreadsheet Server works as an intuitive Microsoft® add-in providing live reporting and analysis from SAP into Excel. This empowers end users with the ability to use familiar Excel features and functions to create dynamic dashboard views from SAP. These views can be accessed, automated and presented with our formula driven methodology, including summary balances and detailed drill-downs. The cloud-based QueryExchange™ component of Spreadsheet Server enables user organizations to select and tailor pre-built queries to meet their specific needs. Utilized in the QueryExchange™, the SmartPak™ feature is way to group pre-configured queries together. Searching by selecting a SmartPak™ gives users a quick and reliable way to access a group of dedicated pre-defined queries. In addition, Spreadsheet Server has the ability to dynamically access the following modules: FI, CO, PCA, SD, MM, PP, QM, PM, HR, PS, New GL, and Special Ledgers. In addition, CEMEX will leverage the Distribution Manager utility, which empowers users to automate the delivery of key business information.

CEMEX is a global building materials company that provides high quality products and reliable service to customers and communities throughout the Americas, Europe, Africa, the Middle East, and Asia. They produce, distribute, and sell cement, ready-mix concrete, aggregates, and related building materials in more than 50 countries, and maintain trade relationships in close to 100 nations. CEMEX's U.S. network includes 13 cement plants, 46 strategically located distribution terminals, more than 100 aggregate quarries and more than 450 ready-mix concrete plants.
