

# CORPORATE ANNOUNCEMENTS

## City of Palo Alto Selects Global Software, Inc.'s Spreadsheet Server for use with SAP®

RALEIGH, NC USA (19th November, 2015) – Global Software, Inc., the innovative leader of Microsoft® Excel-based automation and reporting tools to leading Enterprise Resource Planning (ERP) and Business Intelligence (BI), announces today that California-based municipality, City of Palo Alto, has selected Global's Spreadsheet Server for use with SAP® powered by the QueryExchange™. Spreadsheet Server works as an intuitive, Excel based reporting platform, providing live financial and operational reporting and analysis from SAP into Excel. This empowers end users with the ability to use familiar Excel features and functions to create dynamic dashboard views from SAP. These views can be accessed, automated and presented with our formula driven methodology, including summary balances and detailed drill-downs. In addition, City of Palo Alto will leverage the Distribution Manager publishing utility, which empowers users to automate the delivery of key business information.

The City of Palo Alto is more than 100 years old, and is named after a majestic 1000 year old coastal redwood tree along San Francisquito Creek, where early Spanish explorers settled. The blend of business and residential areas anchored by a vibrant downtown defines Palo Alto's unique character. Unique among California cities, Palo Alto is a full-service municipality that owns and operates its gas, electric, water, sewer, refuse and storm drainage services at very competitive rates for its customers. More information can be found at <http://cityofpaloalto.org/>.

### ABOUT GLOBAL SOFTWARE, INC.

Global Software, Inc. is the leading provider of Microsoft Excel-based automation & reporting software solutions to enhance the world's foremost Business Intelligence (BI), Enterprise Resource Planning (ERP) and operational platforms.
