FLS Energy Selects Global Software, Inc's Spreadsheet Server Platform for use with SAP Business One®

RALEIGH, NC USA (6th May, 2016) – Global Software, Inc. the leading provider of Microsoft Excel-based automation & reporting software solutions to enhance the world's foremost Business Intelligence (BI), Enterprise Resource Planning (ERP) and operational platforms, announces today that Asheville, North Carolina based company, FLS Energy, has selected Spreadsheet Server for use with SAP Business One®. Spreadsheet Server works as an intuitive, Excel based reporting platform, providing live financial and operational reporting and analysis from SAP into Excel. This empowers end users with the ability to use familiar Excel features and functions to create dynamic dashboard views from SAP. These views can be accessed, automated and presented with our formula driven methodology, including summary balances and detailed drill-downs. In addition, FLS Energy will leverage the Distribution Manager publishing utility, which empowers users to automate the delivery of key business information.

FLS Energy is a full-spectrum solar energy company undertaking the exciting challenge of bringing solar into the energy mainstream. Their mission is to develop, engineer, finance, construct, own and maintain quality solar energy systems. More information can be found at <http://flsenergy.com/>.
