Houston Airport System Selects Global Software, Inc.'s Spreadsheet Server for use with SAP®

RALEIGH, NC USA (NOVEMBER 1, 2012) – Global Software, Inc., the official author of the Automation Road Map Strategy™ and the number one provider of Microsoft® Excel-based automation and analysis tools to the leading enterprise resource planning (ERP) platforms, announces today that Houston Airport System, headquartered in Houston, TX has selected Global's Spreadsheet Server for use with SAP® powered by the QueryExchange™. Spreadsheet Server works as an intuitive Microsoft® add-in providing live reporting and analysis from SAP into Excel. This empowers end users with the ability to use familiar Excel features and functions to create dynamic dashboard views from SAP. These views can be accessed, automated and presented with our formula driven methodology, including summary balances and detailed drill-downs. The cloud-based QueryExchange™ component of Spreadsheet Server enables user organizations to select and tailor pre-built queries to meet their specific needs. Utilized in the QueryExchange™, the SmartPak™ feature is way to group pre-configured queries together. Searching by selecting a SmartPak™ gives users a quick and reliable way to access a group of dedicated pre-defined queries. In addition, Spreadsheet Server has the ability to dynamically access the following modules: FI, CO, PCA, SD, MM, PP, QM, PM, HR, PS, New GL, and Special Ledgers. In addition, Houston Airport System will leverage the Distribution Manager utility, which empowers users to automate the delivery of key business information.

The Houston Airport System provides a safe and dynamic air services network that fosters economic vitality for the transportation industry and the greater Houston region. The Houston Airport System has a mission of helping to ensure that its employment, services, and facilities are accessible to the public, customers, and travelers. To bring air service to Houston's population of more than 5.5 million, the Houston Airport System has three facilities; George Bush Intercontinental Airport, William P. Hobby Airport, and Ellington Airport. The three-airport system served more than 49.5 million passengers in 2010, including more than 8.5 million international travelers.
