

## **Noble Energy Mediterranean Ltd. Chooses Global Software, Inc.'s Spreadsheet Server for use with Oracle®**

LONDON UK (21th July 2014) – Global Software, Inc., the official author of the Automation Road Map Strategy™ and the number one provider of Microsoft® Excel-based automation and analysis tools to the leading enterprise resource planning (ERP) platforms, announces today that Noble Energy Mediterranean Ltd., located in Israel has selected Global's Spreadsheet Server for use with Oracle® powered by the QueryExchange™. Spreadsheet Server works as an intuitive Microsoft® add-in providing live reporting and analysis from Oracle into Excel. This empowers end users with the ability to use familiar Excel features and functions to create dynamic dashboard views from Oracle. These views can be accessed, automated and presented with our formula driven methodology, including summary balances and detailed drill-downs. The cloud-based QueryExchange™ component of Spreadsheet Server enables user organizations to select and tailor pre-built queries to meet their specific needs. Utilized in the QueryExchange™, the SmartPak™ feature is way to group pre-configured queries together. Searching by selecting a SmartPak™ gives users a quick and reliable way to access a group of dedicated pre-defined queries. In addition, Spreadsheet Server has the ability to dynamically access the following modules: Accounts Receivable, Accounts Payable, Fixed Assets, Inventory, Projects, OPM and more. Noble Energy Mediterranean will also leverage the Distribution Manager utility, which empowers users to automate the delivery of key business information.

Global worked strategically with Yael Software & Systems Ltd. of Kfar Saba, Israel, a member of Global Software's worldwide partner network, to provide their Spreadsheet Automation Solutions to Noble Energy Mediterranean to automate their financial analysis capabilities in Microsoft® Excel. For more information about Yael Software & Systems, visit [www.yaelsoft.com](http://www.yaelsoft.com).

Founded by Lloyd Noble in 1932, Noble Energy has 80 years of success in the energy industry. As one of the first independent producers to explore in the Gulf of Mexico, the company helped shape the industry and its own future success. Today, Noble Energy is an S&P 500 company with reserves of 1.4 billion barrels of oil equivalent and assets totaling over \$19 billion at year-end 2013. Recognized for innovation, flexibility, exploration proficiency and our technical capabilities in developing hydrocarbon resources, they have an impressive record of success in various regions of the world. They have core operations onshore in the U.S. (primarily in the DJ Basin and the Marcellus Shale), in the deepwater Gulf of Mexico, offshore Eastern Mediterranean and offshore West Africa.
