

Performance Fibers Selects Global Software, Inc.'s Spreadsheet Server for use with SAP® and Enterprise Budgeting

SALISBURY, NC USA (AUGUST 16, 2012)– Global Software, Inc., the official author of the Automation Road Map Strategy™ and the number one provider of Microsoft® Excel-based automation and analysis tools to the leading enterprise resource planning (ERP) platforms, announces today that Performance Fibers, with headquarters in Salisbury, NC USA has selected Global's Spreadsheet Server for use with SAP® powered by the QueryExchange™ and Enterprise Budgeting. Spreadsheet Server works as an intuitive Microsoft® add-in providing live reporting and analysis from SAP into Excel. This empowers end users with the ability to use familiar Excel features and functions to create dynamic dashboard views from SAP. These views can be accessed, automated and presented with our formula driven methodology, including summary balances and detailed drill-downs. The cloud-based QueryExchange™ component of Spreadsheet Server enables user organizations to select and tailor pre-built queries to meet their specific needs. Utilized in the QueryExchange™, the SmartPak™ feature is a way to group pre-configured queries together. Searching by selecting a SmartPak™ gives users a quick and reliable way to access a group of dedicated pre-defined queries. In addition, Spreadsheet Server has the ability to dynamically access the following modules: FI, CO, PCA, SD, MM, PP, QM, PM, HR, PS, New GL, and Special Purpose Ledger and more. Enterprise Budgeting allows organizations to streamline and control the budgeting process, ensuring timeliness, accuracy, and consistency of budgets. Leveraging the popularity of the Microsoft® Excel spreadsheet as a budget building tool, Enterprise Budgeting requires less time accumulating budget detail meaning more time for analysis and strategic planning. In addition, Performance Fibers will leverage the Distribution Manager utility, which empowers users to automate the delivery of key business information.

Performance Fibers is one of the world's leading producers of industrial polyester fibers and fabrics and the only manufacturer with operations in North America, Europe and Asia. For nearly a century, Performance Fibers has been at the forefront of the industrial fibers and fabrics industry, developing next-generation technologies and products used in a wide variety of industrial and consumer applications, from tires and offshore mooring ropes to seat belts and sewing thread.
