FLEXcon INDUSTRIAL LLC SELECTS GLOBAL SOFTWARE, INC.'S SPREADSHEET SERVER PLATFORM FOR USE WITH JD EDWARDS

RALEIGH, NC USA (6 December 2017) — Global Software, Inc. the leading provider of Microsoft Excel-based automation & reporting software solutions to enhance the world's foremost Business Intelligence (BI), Enterprise Resource Planning (ERP), and operational platforms, announces today that FLEXcon Industrial of San Antonio, Texas, has selected Global's Spreadsheet Server Microsoft® Excel automation reporting tool for use in conjunction with JD Edwards®.
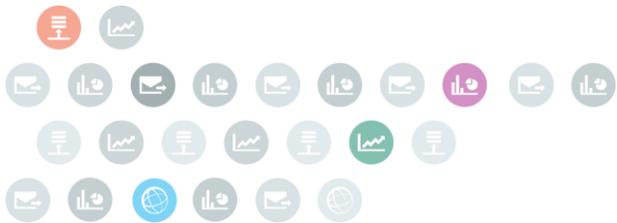

Spreadsheet Server, an intuitive, Excel-based reporting platform, provides live financial and operational reporting and analysis from JD Edwards into Excel. This empowers end users to use already-familiar Excel features and functions to create dynamic dashboard views from JD Edwards. These views can be accessed, automated, and presented with our formula-driven methodology, including summary balances and detailed drill-downs.

Surveyed users have saved upward of three hundred hours per year on their reporting after employing Spreadsheet Server. FLEXcon can expect these and other equally impressive results.

FLEXcon manufactures both a wide range of "off-the-shelf" products as well as custom designed solutions for a multitude of industries. Adept in scale up toll or contract coating and laminating, FLEXcon's manufacturing facility can serve as both design and development platform. They offer complete production services, including coating, laminating, converting, finishing, process engineering, packaging, purchasing, and logistics. Learn more at www.flexconindustrial.com.
