GLOBAL SOFTWARE, INC. RATED AMONG TOP B2B TECH COMPANIES IN RALEIGH/DURHAM BY G2 CROWD
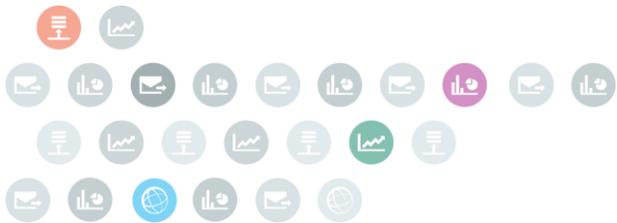

RALEIGH, NC USA (7 February 2018) — Global Software, Inc., the leading provider of Microsoft Excel-based automation & reporting software solutions to enhance the world's foremost Business Intelligence (BI), Enterprise Resource Planning (ERP), and operational platforms, is proud to announce that it has been rated by G2 Crowd as a [top company in B2B Raleigh/Durham Tech](). This research project reviewed trends in Raleigh/Durham and ranked the top 25 companies based on their highest-rated product satisfaction scores. Ratings were also influenced by information on work culture, Glassdoor ratings, Crunchbase funding data, and LinkedIn job openings. Global Software, Inc. was rated eighth on the list.

"As one of the top five tech markets in the United States according to Cushman & Wakefield, Raleigh/Durham features a host of global tech and R&D firms alongside nationally-ranked research universities and healthcare systems," said Spencer Kupferman, President and CEO of Global Software, Inc. "Global Software, Inc. is proud to be a contributing member of this local tech economy for the past 45 years. We are humbled to have been voted one of the highest-rated B2B software products by users and commit to continually deserving this distinction by offering ever-evolving Excel reporting and automation software innovation."

Global Software's Excel-based reporting platforms, Spreadsheet Server and Atlas for Dynamics, provide live financial and operational reporting and analysis from more than 80 ERPs into Excel. End users are empowered to use already-familiar Excel features and functions to create a wide range of reports with their ERP data, from simple spreadsheets to dynamic dashboard views. These views—including summary balances and detailed drill-downs—can then be accessed, automated, and presented using Global's formula-driven methodology.
