

Global Software, Inc. Adds Record Number of New Customers in 2016

RALEIGH, NC (February 16, 2017) – Global Software, Inc., the leading provider of Microsoft Excel-based automation and reporting software solutions to enhance world’s foremost business intelligence and enterprise resource planning platforms, announced today that 2016 produced a record number of new customers (381). This represents a 27% increase in the company’s customer acquisitions over 2015.

A wide range of customers across a variety of industries report that they save over 300 hours a year* by leveraging Global Software’s market leading Spreadsheet Server platform to access live ERP data directly in Excel. Global Software’s Spreadsheet Server Platform experienced adoption across 20+ different industries in 2016, from apparel (Lululemon Athletica Canada, Inc.), local government (City of Frisco, TX), transportation (Raleigh-Durham Airport Authority), hospitality (Palazzo Versace Hotel LLC), commercial real estate (Paramount Group) and food and beverage (PepsiCo Foods Canada). Additionally, a significant portion of the new customers come from the construction vertical (Nations Roof). The diversity of the adoption in multiple industries exemplifies the flexibility and scalability that Spreadsheet Server addresses.

“Our significant customer growth in 2016 is a testament to our commitment to providing the worldwide Excel user community with the most robust Excel Reporting and Automation platform on the planet. Our stellar reputation for servicing our valued customers and partners at a premium level makes for a dynamic combination the market loves,” said Spencer Kupferman, President & CEO, Global Software, Inc.
