

## Global Software, Inc. Releases Noteworthy Spreadsheet Server Version 14.6

RALEIGH, NC USA (13 June 2017) — Global Software, Inc. the leading provider of Microsoft Excel-based automation & reporting software solutions to enhance the world's foremost Business Intelligence (BI), Enterprise Resource Planning (ERP) and operational platforms, announces the release of Spreadsheet Server version 14.6.

An intuitive, Excel-based reporting platform, [Spreadsheet Server](#) provides users with live financial and operational reporting and analysis from a variety of ERP applications. Users are empowered with the ability to leverage familiar Excel features and functions to build and maintain streamlined reports that include summary balances and detailed drill-downs, eliminating the need for manual intervention and reducing instances of error-prone analysis.

Version 14.6 users will experience technical updates and significant performance and connection enhancements when utilizing GXL calculations, load, login, and other calculation processing. Version 14.6 also features a more streamlined installation and lighter footprint in Excel. In addition, this update includes added support for both Secure Sockets Layer (SSL) connections and Oracle Multi-Org set ID processing.

Current users can download the latest release from the [website](#). To request a demo of Spreadsheet Server, [contact us directly](#).
