

GLOBAL SOFTWARE, INC. ACQUIRES SHEETRIGHT, LEADING EXCEL-BASED AUDITING SOFTWARE PLATFORM

RALEIGH, NC USA (7 March 2018) — Global Software, Inc., the leading provider of Microsoft Excel-based reporting, automation, and auditing software solutions to enhance the world's foremost enterprise resource planning (ERP), business intelligence (BI) and operational platforms, is proud to announce that it has acquired Netherlands-based Spreadsheet Software, the author of the Excel-based audit platform, SheetRight. This powerful Excel-based software platform analyzes and processes spreadsheets in seconds to clean, optimize, and analyze workbooks for errors and inconsistencies.

Approximately 750 million people worldwide use Microsoft Excel, and it is estimated that nearly 88 percent of spreadsheets contain errors. If left uncorrected, businesses could risk significant lost revenue and profit from decisions based on incorrect spreadsheet data. Founded in 2011 in Maastricht, Netherlands, Spreadsheet Software's (www.spreadsheetsoftware.com) core competency is enabling users to build spreadsheets free of errors, thereby facilitating better decision-making, enhanced user efficiency, and better quality reports.

"We are thrilled to welcome SheetRight to our brand as we continue on our mission to deliver a full Excel-based turnkey reporting, automation and auditing solution suite," stated Spencer Kupferman, President & CEO of Global Software, Inc. "We look forward to the opportunity to introduce the compelling audit process innovations that SheetRight will deliver to our valued user and partner community, as well as to the entire worldwide Excel user network."

"Joining forces with the world leader in Excel-based software platforms is a dream come true for me. Global Software, Inc. is the platinum standard to which all other Excel-based software solutions compare themselves," said Maarten Bessems, Founder & CEO, Spreadsheet Software. "It's an honor for my organization to be part of the Global Software team in continuing our efforts as the de facto standard in Excel auditing software."
