GLOBAL SOFTWARE, INC. FORMS STRATEGIC PARTNERSHIP WITH THOMSON REUTERS ELITE TO PROVIDE SPREADSHEET SERVER PLATFORM ACCESS FOR PROLAW

RALEIGH, NC USA (11 December 2017) — Global Software, Inc. the leading provider of Microsoft Excel-based automation and reporting software solutions to enhance the world's foremost Business Intelligence (BI), Enterprise Resource Planning (ERP), and operational platforms, announces a partnership between Spreadsheet Server and ProLaw®, an integral offering of the Thomson Reuter Elite Enterprise Business Management Solution.
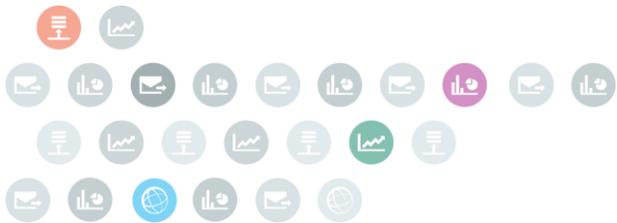

Global Software's Excel-based reporting platform, Spreadsheet Server, provides live financial and operational reporting and analysis from ProLaw into Excel. End users are empowered to use already-familiar Excel features and functions to create a wide range of reports with their ProLaw data, from simple spreadsheets to dynamic dashboard views. These views—including summary balances and detailed drill-downs—can then be accessed, automated, and presented using Spreadsheet Server's formula-driven methodology.

"We're thrilled to partner with the Elite team at Thomson Reuters to provide their clients with live data in Microsoft Excel. Elite and Global Software, Inc. both share a client-first mentality," said Tonya Cannady, CSO, at Global Software, Inc. "Global Software's Spreadsheet Server will empower Excel users and enhance the Elite users experience by integrating two solutions they already know and love."

The ProLaw integrated software solution is designed to automate practice and management of the business of law. It works to simplify, streamline, and coordinate the work of all staff and lawyers in small and mid-size law firms, corporate legal departments, and government agencies. ProLaw combines case and matter management, time entry, billing, and accounting capabilities into a single integrated solution, with remote access available via mobile devices.
